MAY 2021

WIM Resource Pty Ltd (WIM) is a mineral sands (HMS) resource development company, with several projects in Victoria, including the company's flagship Avonbank Project, located 15km north of Horsham Rural City.

This year's webinar series, following on from the introductory webinar held in mid-April, two further webinars have been planned for May and June:

- ◆ **Webinar No. 2**, on 12th May, will cover the Avonbank Project description – learn about what WIM proposes in terms of mining and processing, and how we are engaging with stakeholders
- ◆ **Webinar No. 3**, on 16th June, will discuss the Economic Impact and Surface Water Impact assessments

For those unable to attend, the webinars will be recorded and uploaded to the WIM website, www.wimresource.com.au.

For more information, please contact Michael Davies at mdavies@wimresource.com.au or free call 1800 959 298

PROJECT DESCRIPTION

Learn about what WIM proposes, for example:

- ◆ Mining equipment – type of gear and size
- ◆ Typical mine footprint and size
- ◆ Processing method – how will the valuable minerals be processed?
- ◆ Rehabilitation of the land – how will this be undertaken?
- ◆ Power supply – what are the options WIM is considering?
- ◆ Water supply – where will water be sourced and how will it be delivered to the site?
- ◆ Transport of mineral concentrate

Join us online to learn more about the Avonbank Project.

Everyone is encouraged to attend.
