AVONBANK PROJECT

WEBINAR NO. 3 – ECONOMIC AND SURFACE WATER IMPACT ASSESSMENTS

JUNE 2021

REGISTER ONLINE TO RECEIVE LOG-IN INFORMATION

WIM Resource Pty Ltd (WIM) is a heavy mineral sands (HMS) resource development company, whose flagship Avonbank Project is located 15km north of Horsham Rural City.

This year's webinar series continues with two further webinars planned for June and July. **Webinar No. 3 on 16th June**, will cover **Economic Impact assessment** and **Surface Water Impact** assessment.

Everyone is encouraged to attend and join us online to learn more about the Avonbank Project. Submit your questions through the Q&A link during the webinar, or email in advance if you are unable to be present.

If unable to attend, the webinars will be recorded and uploaded to the WIM's YouTube channel and the website, www.wimresource.com.au.

For more information, please contact Michael Davies at mdavies@wimresource.com.au or free call 1800 959 298.

ECONOMIC IMPACT ASSESSMENT

- ◆ What are the direct and indirect impacts of the Avonbank Project on local, regional, and state product and revenue?
 - \$3.5 billion gross regional product (Wimmera Southern Mallee)
 - \$5.7 billion gross state product (Victoria)
- ◆ What are the direct and indirect cumulative effects of the project on local, regional, and state employment?
 - Up to 656 jobs annually for Horsham Rural City
 - Up to 967 jobs annually for Victoria

SURFACE WATER IMPACT ASSESSMENT

- ◆ Hear from specialist Ben Hughes from Water Technology.
- ◆ Learn more about the baseline studies conducted.
- ◆ What are the regional surface water setting, the project scale surface water setting, are there any surface water effects on the Wimmera River, and Darlot and Dooen swamps?
