TUESDAY, 16TH NOVEMBER
Murtoa Neighbourhood House
10:00 am – 3:00 pm

FRIDAY, 19TH NOVEMBER
Dooen Hall
12:00 noon – 5:00 pm

AVONBANK PROJECT COMMUNITY INFORMATION SESSION

NOVEMBER 2021

POP-IN SESSION, PRE-REGISTRATION IS NOT REQUIRED

WIM Resource Pty Ltd (WIM) is an emerging major producer of zircon, rare earths, and titanium minerals. Our flagship Avonbank Mineral Sands Project's EES and feasibility studies are progressing, and construction is expected to commence in 2024.

The Avonbank Project test pit and pilot plant was very successful – rehabilitation is complete and currently undergoing post-mining soil studies.

WIM is hosting a pop-in community information session at the Murtoa Neighbour House on the 16th November, and at Dooen Hall on the 19th November 2021.

Drop by learn more about the Avonbank Project, its progress, and to meet with the team. Everyone is encouraged to attend.
